

## COMPANY PROFILE

- Project Management
- Construction Services

## HISTORY & PHILOSOPHY

Pashupati Construction began as a general works contractor in 2010. Over the years, the group has undertaken many challenging projects and accumulated skills, know-how and experiences in design and build solutions, project management services, building trades and related engineering works.

Today, Pashupati Construction takes on the role of main contractor for small to medium size projects and performs project management services to coordinates specialist trades for Residential/industrial/commercial projects. We also provide design inputs and engineering solutions as value-add services to our clients.

Pashupati Construction is a multi-disciplined firm providing specialty services to a broad range of clientele, including Central, State, and local Governmental Agencies, Architectural Firms, Contractors, Utility Companies, and Commercial Developers.

The experience of our professional staff, with the aid of sophisticated equipment, allows us to serve our clients with a minimum amount of personnel, and achieve efficient, accurate, and economical results. We offer unique solutions to your problems.

Our objective is to provide our clients with an “I am assured” experience when we are chosen to execute their projects. Our emphasis on clear communication and follow-through procedures ensures that client’s objectives are top priority in the planning and execution of all our processes.

Our project management and execution philosophy is:

- create detail schedule and resources plan to meet client’s project objective,
- communicate clearly with all project stakeholders,
- track project progress and fine-tune deviations,
- supervise closely on quality of work done,
- Complete and commission the project on time.

We take pride in our delivery, thus our clients can always be assured that only the most experienced and qualified people are serving them, all the time.

# Subodh Kumar Sharma
